- * Alternative source to rising costs in other countries.
- * Low manufacturing Cost which makes value added parts cost competitive intern reducing spend.
- * Local Expertise available to identify right supplier for developing product as per customer's requirements.
- * Sustainable Quality
- * Cost Effectiveness
- * Competitive manufacturing location
- * Low cost of manpower
- * Strong technical and engineering capabilities
- * Higher quality production runs

Benefit through our expertise

- * **Improved Supply Quality & Reliability**

Through our systematic and local supplier relationship management we keep your requirements in the forefront of the suppliers mind throughout the supply contract.

- * **Increased Productivity**

iNETE Sourcing Globe's end to end process and training delivers increased productivity in terms of time to re-source categories and staff per category, leading to reduced operating costs and quicker time to benefit realization.

- * **Economies of Scale**

As a Procurement Service Provider working for multiple companies, we can achieve economies of scale which a client on a standalone basis could not leverage. We accomplish this through aggregating spend across multiple customers for the same category, investing in deep category knowledge and expertise, and lastly through negotiating leverage deals with suppliers.

- * **Increased Business Engagement & Alignment**

A key success factor for iNETE Sourcing Globe is engaging the business stakeholders from the beginning to ensure the demand is truly understood and the sourcing model aligns to the operating model.

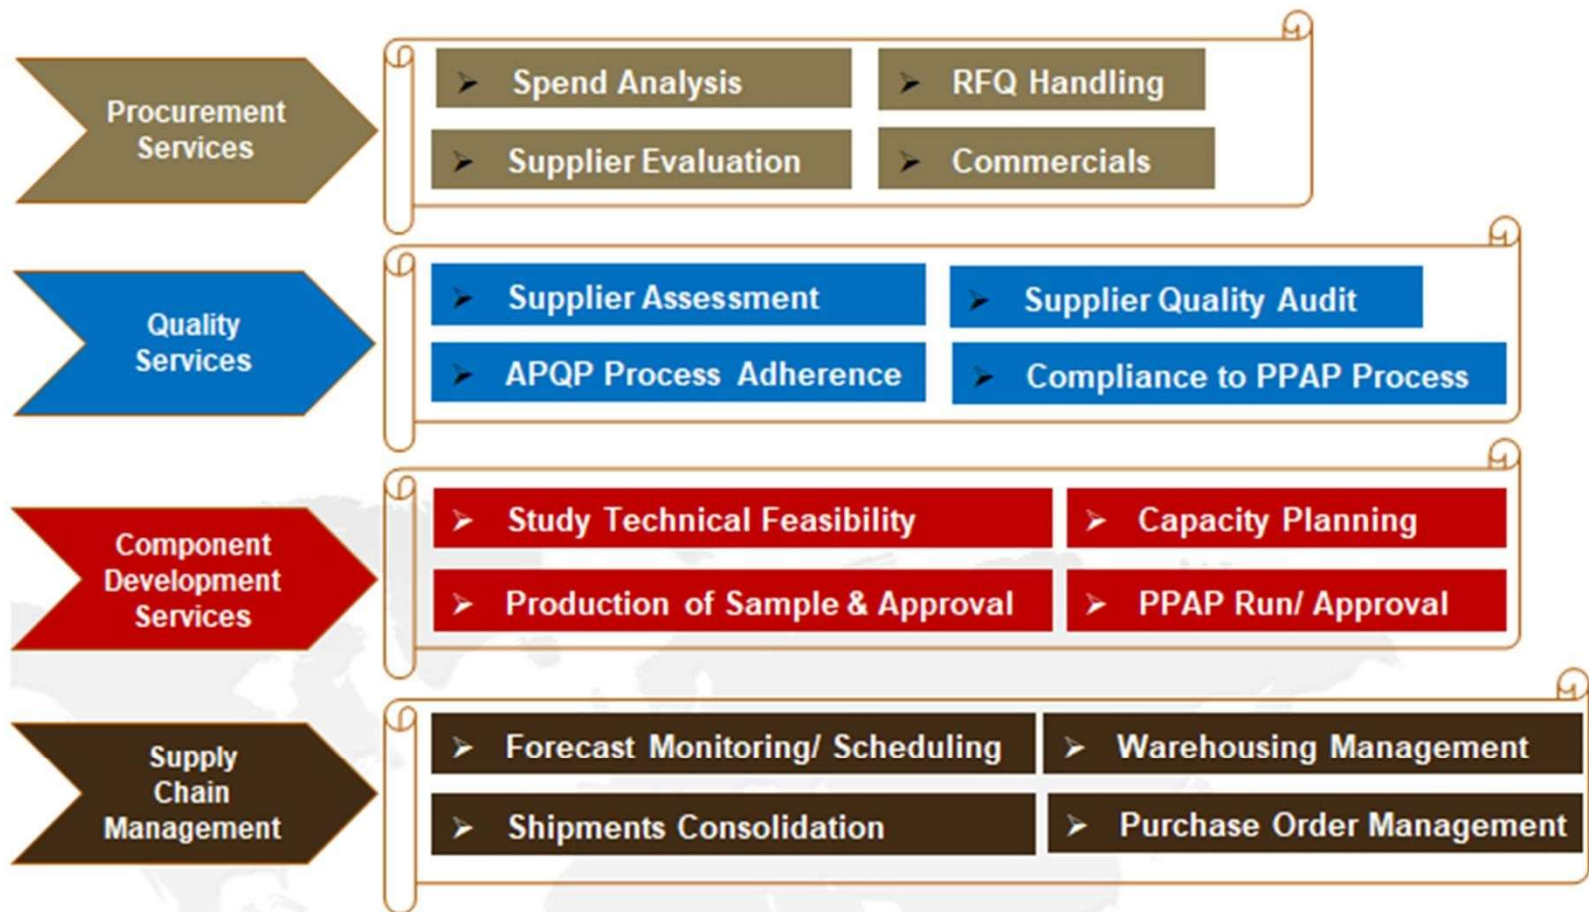

- * **Supply chain and Logistics Management**

End to End support through efficient Supply Chain/ Logistics Management.
